Summary

- Keen software developer proficient in developing dynamic web and mobile applications throughout all stages of the project lifecycle.
- Comprehensive knowledge of modern development tools and languages, coupled with the ability to write clean, efficient, and maintainable code.
- Strong aptitude for embracing new technologies and an inherent knack for problem-solving.
- Ability to collaborate within a team environment and contribute to a culture of shared ideas and constructive feedback.

Work Experience

Software Engineer

Labrys 2023 – 2024

- Specialized in building and refining responsive, visually engaging web and mobile interfaces. Developed and optimized UI components to improve user engagement and accessibility. Employed modern frontend frameworks and design principles to create seamless, interactive user experiences, while collaborating closely with designers to align with UX/UI best practices.

Audio Visual Technician

Select Audio Visual 2020 – 2021

- Operated audio and lighting systems using a broad range of AV equipment including mixing consoles, PA systems, computers, cameras and radio gear to ensure seamless, professional event productions.

Brand Ambassador

Crumpler 2018 – 2021

- Managed in-store promotions, customer service, phone liaison for repairs and sales, and visual merchandising for Crumpler products. Collaborated effectively with a diverse team, fostering a positive work environment and contributing to shared objectives for sales targets and customer satisfaction.

Key Projects

Pegs (AUS) / Repegs (USA) Mobile App - [Download ↗](#)

- A mobile app enabling users to purchase from merchants using an in-app currency system. Built using React Native, with a focus on intuitive UX/UI and seamless navigation.
- Payments-driven mobile app with an integrated social media feature, marketplace, and map system.

Glue Network Exchange Web App - [Deployed Site ↗](#)

- A web app enabling users to trade, earn, and invest in digital assets. Built with Next.js, React, TypeScript, and MongoDB.
- Currently contributing to a complete frontend redesign. Re-styling, improving UI/UX and refactoring components.
